on the web
for less than
\$25 per month!

WHAT IS CNYFOODSOURCE.COM?

CNYFoodSource.com is the only web site dedicated to providing dining information and services to residents and visitors in the Central NY area. Using this new service, your restaurant or bar will be able to:

- **Advertise to customers on-line** with menus, business hours, and pictures changeable by authorized restaurant staff any time.
- **Integrate your entire web site or a simple web page link** (i.e. "www.cnyfoodsource.com/name") to provide customers with direct access to restaurant information.
- Have **your own email address** at name@cnyfoodsource.com increasing communication with customers in the area.
- **Provide your customers with the ability to register for periodic emails regarding daily/weekly specials** and/or events held at restaurant facilities.
- **Sell gift certificates on-line** with your staff using our tools (provided with the service) to review and distribute certificates to customers.

Our goal is to provide your business with just right mix of services that you need.

WHAT DOES IT COST?

There are a variety of service options designed to provide the flexibility that you need. A basic membership is priced based on the length of the membership that your business desires.

- 6 month membership (\$29.99 per month)
- 1 year membership (\$24.99 per month)

The basic membership includes the ability to post your menus, hours of operation, and a picture of your business for customers to view.

In addition, for those with access to email, members may choose to let customers sign up in their **own email registry** so that they can broadcast specials to them on a periodic basis.

Those with internet access may also desire to use our service sell gift certificates based on a 10% transaction processing fee.

For an additional \$5 per month you may add a web link to your service or add an email address to your service.

Call and we will work to customize a service to meet your needs or **register on line** at www.cnyfoodsource.com/signup.asp.
