

HEAVY DUTY CLEANER NO. 211-M5

FOR TRUCKS AND CONSTRUCTION EQUIPMENT

HEAVY DUTY CLEANER NO. 211-M5 is a versatile cleaner designed to quickly remove soot, grease and grime from all aluminum surfaces without harming the aluminum. The product eliminates the corrosive danger associated with most cleaners when used on aluminum and painted surfaces. It is also safe to use on stainless steel magnesium alloys, cadmium and zinc plated steels, plastics and painted surfaces.

HEAVY DUTY CLEANER NO. 211-M5 will not cause crackling or crazing of acrylic base plastics. It is also an excellent degreasing compound when mixed with solvents for extremely dirty areas. It can be used as an engine cleaner. Its ability to emulsify solvents makes it a good product to use to remove oil and solvent spills as well as for cleaning fuel storage tanks.

DIRECTIONS FOR USE:

Heavy Duty Truck Cleaning – All Painted Surfaces, Aluminum and Stainless

Mix one part H.D. 211-M5 with 30 parts of water and apply through a hot water power washer. Agitate the foam on the surface with a brush and rinse with water. H.D. 211-M5 can also be added directly to the washer water for brush application. Use at the 30 to 1 ratio (4 oz. per gallon).

Heavy Duty Cleaning-Engines, Transmissions, Frames, etc.

Mix one part H.D. 211-5 with 5 parts water and use the above procedure. Rinse immediately when used on painted surfaces at this 1 to 5 ratio.

Super Heavy Duty Degreasing with Solvents

Mix one part H.D. 211 M-5 with 1 part water and 7 parts kerosene or mineral spirits. Stir well or agitate with air to produce a thick creamy emulsion. Apply the emulsion with spray or brush and allow to penetrate for several minutes, then agitate with brush and rinse with water

TOXICITY: Non-Toxic, Safety Data Sheet available.

HEAVY DUTY CLEANER NO. 211-M5 is made with biodegradable, non-toxic detergents. It does not contain phenols, chlorinated solvents, chlorides, chromates or other toxic materials. It is an alkaline liquid, which should be stored out of reach of children. If taken internally, do not induce vomiting. Dilute by drinking large quantities of fluids and get immediate medical attention. If splashed in the eyes, flush with water and get medical attention.

WASTE DISPOSAL CHARACTERISTICS:

Under normal use, H.D. 211-M5 will not pollute surface water or adversely affect animal or plant life.

STORAGE:

Keep containers closed tightly to prevent evaporation loss of product. It may be stored under freezing conditions or at temperatures up to 140° F. without damage to the product. If frozen, thaw completely and mix before re-use.
